Tom Reed's Birthplace.
 The birthplace of the late Speaker Reed, which is about to be torn down, is in the heart of Portland's Italian quarter and is now a tenement, swarming with sons and daughters of sunny Italy. How much they are impressed with the greatness of their surroundings was shown when a visitor, desiring to get a look at the celebrated statesman's birthplace, asked a boy if he would show him the "Tom Reed house." "Tomma Reed! Tomma Reed! You mean Tomma Reed, da milkanian!"

Beneficent Work.

EXPRESS COMPANIES
COMPLY WITH LAWS

Send Their Agents Rate Books For All Points in Canada and United States.

Agents of the express companies which have offices in this city have received new rate books which show the charges to every common point in the United States and Canada. This rate book was made in compliance with the new interstate law which went into effect the first of the month, and was prepared by the joint traffic association. The interstate commerce law requires uniform rates, and no one may be discriminated against, but the private individual may send a package by express as cheaply as the manufacturer, the publisher or producer of an article, while heretofore special rates were granted certain shippers.

The new rate book is also for public inspection, while previously every company kept the rate sheets in its own hands and a patron might learn the rates only by inquiring of an agent who alone had access to the rate sheets. Under the new law any one may step into an express office and ask for the rate book if it is not on the counter, and it must and will be shown him at once.

The new law has reference only to those points which are reached by more than one company. The charges to points touched only by one company have no connection with the new ruling.

AL. SCHALLER IS IN
THE FIRST FLIGHT

Janesville Man Well to the Fore in the State Golf Tournament at Madison.

Albert Schaller was among the first sixteen in the qualifying round of the Wisconsin State Golf Association tournament yesterday, being fourth on the list with 88; Jacobs of Madison, first, with 85; Greenwald, Oshkosh, second, 87; and Hewitt, Oshkosh, third, 87. J. P. Baker was in the second sixteen for the consolation cup with 98. Other Janesville players' scores in the qualifying round were: Stanley Tallman, 100; Morse, 103, and Fred Schaller, 107. In the afternoon Schaller defeated Allen of Kenosha 4 up and 3 to play and Mr. Baker lost to Russell of the Milwaukee Country Club 5 down and 1 to play. This leaves Schaller in excellent position as a runner-up if not champion possibility for the state cup.

FAMILY REUNION IS
BEING HELD TODAY

Descendants of the Late O. Dean of the Town of Center Met for Dinner Today.

At the residence of Mr. and Mrs. Laura Fisher, 56 Milton avenue, a family reunion and dinner is being held today by the descendants of O. Dean, who in 1865 came to Rock County from Ohio and settled in the township of Center. The six surviving children of Mr. Dean—Mr. Bailey S. Dean, professor of history at Hiram College, Ohio; S. A. Dean of Chicago; Mrs. Wray of Ohio; and Mrs. Lucy Parmley, Mrs. Hawthorn and Mrs. Laban Fisher of Janesville—have met for the first week's reunion in many years. Dinner was served to twenty-five relations this noon and a most enjoyable afternoon spent in visiting.

THOSE BEARS CAUSE
CONSIDERABLE TALK

Interest in the Purchase of the Two Cubs Does Not Flag—Many Persons Sign Lists.

Knoeks on the plan to purchase the bears and build a suitable cage for them so that the public can enjoy their antics have met with such a storm of disapprobation that it is now almost certain enough money will be subscribed to pay for the bears and build a cage befitting the two little strangers. The blanks at the drug stores and four banks are being liberally signed and are still open to the public.

EMBARGO PLACED ON
LUMBER YESTERDAY

North-Western Cars Loaded With Lumber Will Be Held Here Because Chicago Yards Are Filled.

Last night an embargo was placed on lumber at this place and different points along the North-Western line against shipment to Chicago. It is declared that the Chicago yards are now filled almost up to their maximum and cars loaded with lumber will be held here and at Harvard until the embargo is raised. There were eight cars of lumber in the local yards this morning but more arrived here today in transit to Chicago. They will be held here until notice is given that shipment be continued.

WESTERN UNION MEN
FINISH AND LEAVE

Complete Work of Changing Line From East to West Side of Tracks at New North-Western Yards Here.

After completing the work of changing the Western Union telegraph poles and wires from the east side of the North-Western double tracks near the new yards to the west side of the tracks, the gang of workmen left today for Harvard where they will be busy for a few days. The telegraph line was changed from the east side to the west side because of the construction of the new yards. The line will not interfere with the yards on the west side. The wire men have been on the job for about five weeks.

FORTY PAGES WILL
BE SIZE OF LAWS

New Laws of the State for Year Largest Supplement Ever Published.

Publication of the session laws in newspaper supplement from this year is a tremendous undertaking. The number of laws enacted and the unusual length of many of them make the aggregate sufficient to fill nearly forty newspaper pages or more than have been required in any legislative year since the enactment of the law requiring the publication of the state laws in the country press. The laws of 1905 filled 28 pages. The amount of white paper required for the supplements will be enormous. The laws will be published by the weekly newspapers of the state the second week in August.

ELKS' MEETING WILL
BE TUESDAY EVENING

Rooms Will Be Ready for Occupancy by That Date—Lodge Rooms Finished Now.

On Tuesday next the first meeting of Janesville Lodge 254 of the B. P. O. E. will be held in their new lodge rooms in the Myers Theatre block. It is expected the club rooms will be ready for use at that time as all the furniture is here and the only delay is in placing the billiard tables and arranging the curtains. The work of the contractor is now over and the rooms turned over to the House Committee.

JUNIOR MEMBERS TO
CAMP AT DELAVAN

Y. M. C. A. Boys Will Spend Annual Outing at Lake Delavan the Latter Part of August.

Junior members of the Y. M. C. A. will spend their annual outing at Lake Delavan Aug. 20 to 30, this year. Arrangements are now being made for the camp and General Secretary J. C. Kline will go to Lake Delavan with a few days to engage a couple of cottages for the camp. The fee for the camp will be \$6 including transportation of baggage and accommodations on the grounds for the ten days. It is probable that the senior members of the association will engage a cottage at the lake and be in camp at the same time when the juniors are. Field Secretary Berryman will be in charge of the camp.

HON. JAMES MONAHAN
BEGINS LECTURING

Former Internal Revenue Collector Well Known in Janesville Starts Chautauqua Work.

Manager Harry Holbrook of the Janesville Chautauqua announces that Hon. James Monahan of Burlington, former Internal Revenue Collector for the western Wisconsin district, has begun lyceum work and will speak on Thursday next at the Janesville Chautauqua. Mr. Monahan is a strong speaker and his subject, which involves a plea for more consideration in public affairs, is one of much interest at the present time when so many new and confusing laws are before the people for their consideration. Mr. Monahan is a strong speaker and is booked to speak at the Monona Assembly on the Wednesday before coming here.

KNIGHTS FROM HERE
VICTORS IN GAMES

In Janesville-Beloit Picnic at Yost's Yesterday—Line City Took but One Honor.

Honors in the athletic contests of the Janesville-Beloit Knights of Columbus picnic at Yost's Park yesterday were largely won by the Bover City. In the various sports the Knights from this city won all firsts. In the ball games knaves were equally divided. The Janesville businessmen valloped the line City merchants 22 to 0. Joe Connors did the spore twisting for the locals, while Charles Sweeney of Edgerton, stood behind the bat and glommed these hyperbolic curves. Patrick Ryan proved a second Frank Chance on first base while Thomas Nolan and William Dooley decorated the second and third bags. Out in the garden was Michael Hayes, but Pitcher Connors saw that he was not overworked. Dennis Hayes acted as umpire and at no time was there danger of him being mobbed. A second ball game was played between teams representing the Janesville and Beloit councils. At the end of seven innings Beloit was 11 and Janesville 3. Devins and McCarroll were the local battery and John Doran proved a star on third base.

Besides the games there were other interesting events on the day's program—picnic dinner at noon, lunch in the evening and dance at night. The festival was equal to the great success of last year and the joint picnics will probably be made annual events.

VETERANS TO HOLD
ANOTHER BIG PICNIC

G. A. R. Posts of Janesville, Beloit, Clinton, Fort Atkinson and Other Cities Make Plans.

So successful was the Grand Army picnic held at Yost's park in June that the affair will be repeated on a larger scale at the same place on Wednesday, August 14. Arrangements have been made as follows: The committee for the day—Com. S. C. Cobb of this city, Adjutant Henry Putnam of Broadhead, L. S. Mosley of Beloit will act as officer of the day. John Davidson of Milton as officer of the guard, Captain L. C. Brewer as drillmaster. The general committee in charge—W. T. Mayhew, Clinton; John Wolf, Fort Atkinson; A. Aders, Edgerton; H. A. Babcock, Evansville; J. S. Wetzel, Beloit; J. E. Carle of this city; A. O. Clifford, Milton; Joseph Thompson, Whitewater.

Fort Atkinson, Evansville, Edgerton, Whitewater and Milton posts will come to this city on early trains and with the Janesville post will leave on the 9:15 a. m. interurban car for Yost's park, escorted by the G. A. R. drug corps and the bag. At the park the program will be:

11 a. m.—Grand Mount.
 12 noon—Beans, Beans, Beans.
 2 to 3 p. m.—Spelling and Singing.
 3 p. m.—Grand drilling match for all old soldiers of '61 to '65.
 Guns will be furnished and the old army tactics used. As fast as an error is made, party must drop out. Capt. L. C. Brewer of the Mich. Vols. will drill the squad and give prize to the winner.

4 p. m.—Dress parade, to which every old soldier is requested to take part and see how good his memory is. Every old soldier and his family. Women's Relief Corps, soldiers of the Spanish-American war, and all their friends are invited to attend and spend the day. The posts all over the southern part of the state are taking great interest and a large attendance is promised.

CHICAGO MAN HAULED
UP FOR FISHING

Taken in by Game Warden at Afton For Fishing in Mill Pond.

Afton, July 26.—Game Warden Peter Drafiak was called to Madison last Tuesday by reason of the trial in the municipal court of A. W. Welshons, a Chicago cigar dealer and confectioner, who was arrested last Saturday morning by Game Wardens Gratz and Drafiak for fishing in Token creek mill pond with nets whose use were illegal. Burr W. Jones represented Welshons. He stated to the court that the owner of the mill, a Mr. Ellis, supposed he had a right to fish in the pond and allow his friends to do the same on the theory that the pond was his private property. Welshons fished there in good faith, said Mr. Jones, and brought a net with him from Chicago. Upon the recommendation of District Attorney Mason the lowest fine was imposed amounting to \$25 and costs.

Members of the Ladies' Aid society met with Mrs. W. R. Kimer last Wednesday afternoon and after work hours enjoyed a picnic supper on the lawn. Miss Mary B. Antisdel of Chicago was in Afton for a couple of days this week, hiding relatives and friends farewell prior to leaving for India, where she goes to join her brother, Rev. C. B. Antisdel and his wife, on the mission field. She expects to be gone five years.

Miss Josephine Seales is visiting relatives at Roscoe, Ill.
 The Royal Neighbors of Afton have received an invitation to visit Magnet Camp at Shojiere next Thursday afternoon and are planning to accept the hospitality of their sister camp.

Conductor Floyd Miller of the Rockford & Interurban railway spent a couple of days at home here this week.

PILE DRIVER COMES
OUT FROM CHICAGO

Will Sink Piles to Serve as Temporary Support Till Rock Abutments Are Set.

This morning a North-Western pile driver arrived here to do some work on the bridge that is being double tracked. The driver will be used to sink piles that will serve as a temporary support while the rock abutments are being set. The piles to be driven are 45 feet long. Engine 350 is being used to change the position of the driver. Conductor Roche has charge of the train and Engineer Grede is on the engine.

Heavy, impure blood makes a muddy, pimply complexion, headaches, nausea, indigestion. Thin blood makes you weak, pale, sickly. Ruskin on Manual Labor.

We are always in these days endeavoring to separate intellect and manual labor; we want one man to be always thinking and another to be always working, and we call one a gentleman, and the other an operative; whereas the workman ought often to be thinking, and the thinker often to be working, and both should be gentlemen in the best sense. As it is, we make both ungentle, but one envying, the other despising his brother; and the mass of society is made up of morbid thinkers and miserable workers!

Cornelius Vanderbilt

Cornelius Vanderbilt the Third is first of all a capitalist and director in many banks, trust companies and railroads. He is also for his own personal pleasure a practical railway engineer with a thorough knowledge of just how trains are built up and how they ought to be run. He studied long in railway shops and operating departments to obtain a first hand knowledge of the business. He graduated at Yale in 1835 and one year later married Miss Grace Wilson, a noted and wealthy New York society belle. Cornelius Vanderbilt Third is the son of Cornelius Vanderbilt and Alice Vanderbilt. He has homes in New York and on Long Island.

DISCRIMINATING LADIES.

Enjoy Using Herpelide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpelide speak of it in the highest terms, for its quick effect in cleaning the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it always keeps itching which dandruff will cause. Newbro's Herpelide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpelide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. So, by leading druggists. Send for a sample to The Herpelide Co., Detroit, Mich.

FIFTEEN CENTS WAS
PRICE DECIDED ON

Price of Shave Goes up When Boss Barbers Count up the Increased Cost.

At a meeting of the Boss Barbers of the city held in Wisch's barber shop last evening all former differences that have existed between various shop-owners were settled and it was decided in the future to charge the public fifteen cents for the privilege of having their face clean, but as a help to the customers decided to hand them a neck shave free. On holidays the shaves have cost fifteen cents in the past with a neck shave thrown in and after August fifth, when the new order of affairs goes into effect, every day will be holiday rates. None of the shops will be open on Sunday, but the closing hour, Saturday night has been lengthened to midnight instead of eleven o'clock as formerly.

COFFEE MATCHED AT LAST

A Test Package Mailed Free.

A new product—Dr. Shoop's Health Coffee—is said to closely match Old Java and Mocha Coffee in flavor, taste, and aroma, as to be scarcely discernible from the very best brands of real coffee. "And yet," says Dr. Shoop, "Health Coffee has not even a grain of real coffee in it." I make my Coffee Imitation from pure healthful, tonic grains or cereals, with milk, nuts, etc. This is why I have named it Health Coffee.

Again, the tedious 20 or 30 minutes wait, necessary in preparing other Coffee substitutes is mostly saved. My new Health Coffee Imitation is made in exactly one minute—in 60 seconds.

If Coffee drinking makes you dull and listless, if it disturbs your stomach, your heart, or your kidneys, try my Health Coffee and see for yourself what it can and will do for you. Send 4 cents in stamps to cover postage, to Dr. Shoop, Racine, Wis., and secure a liberal test package, entirely free. 1 1/2 pound package Health Coffee sells at 25 cents by

WHAT IS A WANT AD?

Nine out of ten people will answer that question this way: "Why, it's a little advertisement for Help Wanted or Situation Wanted."

Yes, it is. But is that all? Did you ever stop to think of the many uses to which these little Want Ads may be put?

Here is a list of the classification under which Want Ads can be inserted in The Gazette at a moderate cost and with the assurance of practically certain results.

You can count on your fingers the number of folks who at some time or other could not use the classified columns of The Gazette to advantage in filling a Want.

Consider for a moment the scope of this list:

Real Estate—For Sale or Rent.
Business Places—Sale or Rent.
Ground Rents, Mortgages, etc.
Real Estate—Suburban and Country.

..Forty Years Ago..

Janesville Daily Gazette, Friday, July 26, 1867.—Railway Accident.—A freight train came in collision with a gravel train near Jefferson this morning on the Chicago & North-Western, smashing up the engines and doing other damage. We did not learn that any one was hurt.

The West vs. the East.—The great game of baseball played yesterday in Chicago between the Nationals of Washington and the Rockford clubs resulted in favor of the latter in a score of 29 to 23. The Nationals claim to be the champion club in the country.

Complimentary.—A dispatch from LaCrosse to the Chicago Journal has the following to say in reference to an essay read by the principal of our high school before the state Teachers' Association: "The last hour was occupied by O. R. Smith, of Janesville, with a paper upon primary schools—a paper full of close thought, clear reasoning, and brilliant illustrations."

Improvements.—It gives us great pleasure to chronicle all improvements going on in our city particularly on our business streets. Among these we observe that Williams, Richardson, M. C. Smith & Co. are erecting in a new building of large proportions and Major May has been putting down a new sidewalk in front of his block and is making some changes and attractions about his premises in his usual elegant style.

Circuit Court.—The jury in the case of Plate vs. Kanary have returned a verdict of \$2000 for the plaintiff. The case of Richardson vs. C. & N. W. railway is now pending. This is an action for killing sheep in the town of Union.

GUARD ANCESTORS' GRAVES

CONLEY SISTERS WILL PROTECT HURON CEMETERY.

Wyandotte Indian Girls Threaten Death to Disturbers of Bones of Their Forefathers.

Kansas City, Mo., July 26.—Helena, Ida and Lida Conley, sisters, and Wyandotte Indians, began an armed guard Thursday over the graves of their ancestors in Huron cemetery in Kansas City, Kan., recently ordered sold by the government, and threaten to shoot the first person who may attempt to remove the bodies.

Congress authorized the sale of the cemetery, set aside for many years as a burial ground, and a division of the money among the remaining members of the Wyandotte tribe, first removing the bodies. The Conley girls say they won't permit the graves to be touched and they began the erection of a shanty on the outskirts of the cemetery. Miss Helena Conley, who was superintending the building, said: "From this time on one of the three Conley sisters will be here in the day time. At night all three of us shall sleep here and guard."

"In this cemetery are buried one hundred of our ancestors. The blood of the ancient royalty of France flows in my veins. My grandfather owned the whole state of Ohio. Why should we not be proud of our ancestors and protect their graves? We shall do it, and we be to the man that first attempts to steal a body."

"We shall keep right on asking bids on the property," said H. B. Durant, chairman of the government commission, which is trying to sell the cemetery. "The government is behind us."

Will of Phineas M. Spencer. Cleveland, O., July 26.—The will of Phineas M. Spencer, a widely known banker of this city who died Tuesday, was probated Thursday, disposing of an estate of nearly a million dollars. Among the bequests are \$22,000 to Mary Costello, his housekeeper; to another member of his household staff, \$10,000; to Mrs. James Wood, of Buffalo, N. Y., \$10,000, and to Mrs. Harry Wood, of the same city, \$10,000; to Miss Allie Camp, of Cleveland, \$4,000, and to Miss Frances, stenographer in Mr. Spencer's bank, \$2,000.

Second Lyncher Acquitted. Charlotte, N. C., July 26.—The efforts of the state of North Carolina to bring to justice the 20 odd citizens of Anson county who took J. V. Johnson from Wanesboro jail May 20, 1906, and lynched him, came to an abrupt termination late Thursday when the jury in the case of Zeke Lewis, the second of the lynchings to be tried, returned a verdict of not guilty.

Maryland Home-Coming Week. Baltimore, Md., July 26.—To extend the invitation broadcast to the Marylanders in other states and countries to the home coming week from October 14 to 19 and to carry out the arrangements for their welcome, the Maryland Home-Coming association was organized here Thursday by a gathering of prominent men of the city and state. Gov. Warfield called the meeting to order and was elected president of the association.

Telegraph Messenger Boys Strike. Salt Lake City, July 26.—Business in the Western Union telegraph offices here was hampered Thursday by a strike of the entire messenger force. The boys demand every other Sunday off and to work four hours on Sunday when on duty.

Illinois Man Gets a Place. Washington, July 26.—Henry A. Hutchings, of Illinois, was appointed Thursday a special agent of the Indian bureau to aid in the suppression of the liquor traffic among the Indians.

Relics in British Museum. A hoard of nine gold bracelets, found in a pit-dwelling of the seventh or eighth century B. C. in a field near Bexley Heath, have just been placed in the Gold room at the British museum.

Talmage's Widow a Writer. A leading favorite in the literary circles of Washington is the widow of T. De Witt Talmage, the celebrated Brooklyn preacher. Since the death of her husband Mrs. Talmage has passed much of her time at the capital. She writes for magazines and newspapers, generally verses, but always under a nom de plume.

Big Motors in Canadian Woods. It is in the forests of Canada where the biggest motors in the world are seen. They have been specially designed for hauling logs over snow and rough roads. One of these machines is capable of dragging a train of 200 tons weight of logs at a speed of 12 miles an hour.

Mrs. Susan B. Dixon Dead. New York, July 26.—Mrs. Susan Bullitt Dixon, author of "Repeal of the Missouri Compromise," "Slavery in American Politics," and other works, died Thursday at St. Luke's hospital, aged 78. Her home was in Henderson, Ky., but of late years she had spent most of her time in New York city. The body will be taken to Kentucky for burial.

Many Poisoned by Ice Cream. Nashville, Tenn., July 26.—Between 70 and 100 persons were poisoned by eating ice cream Wednesday night at a festival at Hamilton church, nine miles from here. Prompt medical attention prevented any fatalities.

Child Kills Himself With Gun. Minneapolis, Minn., July 26.—Little John Hittyna got hold of a shot gun Thursday, the weapon was discharged and the boy's head was blown off.

For a hot-weather dish try Endive of Beans

When it's 90° in the shade, there's nothing more cooling or refreshing for luncheon. Endive (German Lettuce) is very toothsome in itself, but when served as a combination with beans the result is a delicate deliciousness which, once tasted, is never forgotten. Have your grocer send you a can of

Secure a can of VanCamp's Endive of Beans with Tomato Sauce.

Cut up Endive (German lettuce) and mix with beans. Take one-half pound bacon, sliced finely and cook in pan until crisp, then pour on top of vinegar and let come to the boil, and pour this over the Endive and Beans as a dressing.

INCREASING LENGTH OF LIFE. What Medical Science Has Done for the Human Race.

Reviewing the progress of medicine during the nineteenth century, Dr. John S. Billings, United States army, has shown that deaths of women from childbirth, decreased during that period from 10 to 20 in 1,000 to 5 in 1,000, and that from all causes the deaths in New York city fell from between 35 and 40 in 1,000 to less than 20 in 1,000. He recalls the fact that 100 years ago yellow fever was epidemic in New York and Philadelphia for two years. For 20 years the disease has been almost unknown throughout the whole country; also that in 1800 the majority of persons one met were pitted with smallpox—the survivors of a much greater number—while now there are physicians who have never seen a case of smallpox; and that in the Napoleonic and revolutionary wars more died from disease than from wounds, while now hospital gangrene is unknown. Statistics show that in Chicago during the last 25 years the average age at death has increased from 12 to 32 years.

No one disputes these facts or attributes them to any cause other than medical science—the measures employed partly in curing disease, but more especially in preventing its introduction or its spread when once introduced.

LIGHTNING CAN'T STRIKE YOUR HOUSE

—or your barn—if it is equipped with the Janesville Pure Copper Cable Lightning Rod.

Why?

Because during a thunderstorm the clouds are charged with electricity. Lightning occurs only when this electricity is attracted by an accumulation of electricity in the atmosphere nearer the earth. The Janesville Copper Cable Lightning Rod carries off this accumulation as fast as it forms, thus making it IMPOSSIBLE for lightning to "strike" the building to which the rod is attached.

Tens of thousands of buildings have been thus rodded, and not one has been damaged by lightning—not one ever will be.

Call and let us demonstrate more fully.

THE "SHORT" CROP

From the standpoint of the farmer a short crop of wheat, or corn, or cotton, may be compensated for by higher prices for the products. It is fallacious, however, to regard the increased money value of the short crop as a compensation for the reduced yield, looking at the matter from the world's standpoint. If a normal crop is let it be said, 600,000,000 bushels, and only 500,000,000 bushels are raised, there has been a loss in the wealth-producing capacity of the country of 100,000,000 bushels, although the market value of the 500,000,000 bushels may be equal to the market value in former years of 600,000,000 bushels. It is estimated that although the corn crop may be 400,000,000 bushels less than last year the value of the entire crop will be only \$21,000,000 less, and so far as the farmer is concerned and his capacity for investing in luxuries and securities, this result is almost as good as if he had grown the full crop. This is not so as regards the rest of the world.

Some people regard a fire as a blessing in disguise, inasmuch as it is compensated for by the insurance money and immediately causes new demand for building materials. But somebody has to pay for the new construction which replaces the property that has been destroyed. It is an economic loss to the world. The same rule applies in large measure to the short crop. The short crop may mean higher prices for the product, but the world must pay the higher price, and in order to pay that higher price must deprive itself of other things. It is a loss, not a gain.

Fortunately our crops this year do not promise to be of the kind to which the word "short" could be appropriately applied. While less than last year, the outlook is for about the five-year average.

OUR FINANCIAL SYSTEM

Our European critics are constantly complaining of the American financial system, arguing that we need to change our currency laws. Undoubtedly there is some ground for this criticism, and that the United States must soon take up for action the question of currency readjustment. But with all the defects of our financial system, it is not a fact that no country has stood more magnificently upon the pressure of the world-wide strain upon the money markets than the United States? Is it not true that no other country could have made a better showing of strength, if it had been subjected, as the United States has been, to the terrific depression in securities such as took place in the New York stock market during the first half of the year? England has a great central bank, but is England any better off this year than the United States?

Germany has an admirable system of emergency circulation upon which many of our plans of currency reform have been based. But for all her elasticity of circulation the German rate of discount last December was as high as 7 per cent, and German conditions have certainly not shown an improvement upon those of the United States during the past six months. This is not necessarily an argument against a central bank or an elastic circulation based in part upon assets, but it certainly is an argument in favor of the United States, while availing itself freely of the experience of other countries, endeavoring to erect

a financial system of its own adapted especially to its territory and to its particular elements of strength and weakness.

Mr. Barnes appears to have wound Mr. Connor up when he made that reference to Waupun in his letter. It was not kind of Mr. Barnes, and not at all the act of a man of consideration. Connor may have hurt Mr. Barnes very much, but Barnes did not need to rush into print to discuss it. Connor's actions condemn him without any other assistance.

From the plea for Haywood one would think that the whole of the United States would be in danger of disruption if he was convicted. Harry Orchard is a desperate character, but he may have told the truth in some details and if he did Haywood should suffer.

Nothing has been heard whether Cooper, Hatten, McGillivray, Lenroot and Esch mean to run for that United States Senatorship next year or not. To tell the truth, the public has not yet gotten over the shock of Stephenson's election and prefer waiting.

If Davidson makes a good, wise selection for that Railroad commission he may be able to weather the storm that is coming. If not, it will be hard work for him to steer the nomination and election his way.

There is a shortage of the opium crop and it is hoped that the shortage may cause the placing on the market of adulterated products in such a form people will refuse to buy it.

The Haywood jurors should appreciate the fact they would have to have paid fifty cents each if they had heard Darrow's oration under the auspices of a lyceum bureau.

North Carolina is causing lots of uneasiness just now and a Philadelphia lawyer is needed to unravel the tangle it is in regarding the federal and state rights.

The sailing of the Pacific fleet, now the Atlantic may be delayed until after the Jamestown Exposition so as not to break up that farcical show.

Japan has sent three wrships to Korea to show the people what a big brother they have secured without any asking on their part.

Wisconsin paid dearly for every law passed—two hundred and fifty dollars, to say nothing of the cost of all the praying by the ministers with such results.

How about fixing some of the Rock county roads with a split-log drag if the township can not afford to lay an entirely new roadbed?

Everyone should patronize the Janesville Chautauqua this week and next. The program is exceptionally fine.

Buttermilk will become a favorite drink of the Fairbanks politicians, but some of them will want a stick to stir it with.

Japan is really in control of Korea even if the Koreans do not know it.

It was just like Darrow to say those mean things about the constitution.

MORTUARY MENTION.

Miss Stephen Leary.
The funeral of the late Mrs. Stephen Leary was held from the St. Mary's church where high mass was celebrated by Rev. J. J. McGinnity this morning at 8:15 and the remains were sent on the morning passenger train to Darlington for burial. Those who accompanied the body to Darlington were Stephen Leary, Mr. and Mrs. M. R. Kennedy of Butte, Mont., Mr. and Mrs. Huffman of Milwaukee, Mrs. Kaufman of Kansas City, John Link of Darlington, and E. P. Ryan. The pallbearers were Jas. Sheridan, Martin Hessian, James Kemmett, Patrick Ryan, T. E. Ludden, and Daniel Leary.

TRUST BUSTING

The most popular man in the hearts of the American people today is President Roosevelt.

Why? Because he stands for the "square deal" to the common people as well as to the corporations.

He takes the side of the people who need things and against the combinations that would take advantage of their needs, to extort undue gains.

These are days when lots of men find it to their profit to combine and raise prices.

In Dentistry, Dr. Richards of Janesville holds a record from all local combines and maintains his prices on a living, reasonable basis.

One lady recently saved \$17 on her dental bill by selecting him to do her dental work.

He does the BEST of work. His prices won't jar you.

ASSEMBLY OPENS THIS AFTERNOON

ALL BODES WELL FOR VERY SUCCESSFUL SESSION.

IMMENSE CROWD TONIGHT

A. E. Matheson, Delivered First Address—Supt. Holbrook Arrives.

Janesville's third annual chautauqua assembly opened this afternoon with everything boding a very successful session. Weather conditions are ideal and no doubt there will be an enormous crowd in Mole's Grove tonight, when the first lecture on the program is delivered. A far-sized audience listened to the opening exercises this afternoon. In the absence of Rev. W. A. Goebel, who was called out of the city by the death and funeral of Father Bourgmeier of Kilbourn, A. E. Matheson, a member of the executive committee, delivered the address of welcome. In a concise manner he laid before his hearers the purpose of the Chautauqua, closes ten days hence. He is the dynamic force that directs the general arrangements and is largely responsible for the success which is now assured.

"Hurry-up Harry," Here H. M. Holbrook, known as "Hurry-up Harry," the Chautauqua man, arrived in the city today and is strenuously engaged in the work of superintending the assembly. He began work immediately after landing and will not cease until the Chautauqua closes ten days hence. He is the dynamic force that directs the general arrangements and is largely responsible for the success which is now assured.

Strongest of Sunday's Lectures.
The lecture, which "Billy" Sunday will deliver this evening at eight o'clock is the critical one in the series that he gives when conducting revivals. It marks the turning point in all his evangelistic campaigns and this means that it is the strongest he gives for all of Sunday's revivals are successes. Sunday is a human gathering gun, pouring out hotshots in rapid and telling manner. He is no weak spitter. His blows are telling. It is an actual fact that people have come three and four hours before the time set for this sermon on "Amusements" in order to get seats and times without number have been turned away. The local management expects a record-breaking audience tonight and is preparing to handle it satisfactorily.

Changes in Program.
Some changes have been made in the program.

Instead of lecturing on "Among the Masses, or Traits of Character," Col. George W. Bain of Lexington, Ky., Kentucky, will speak tomorrow afternoon on "The Twentieth Century Searchlight." Mr. Bain is a veteran of the confederate army and is known as the most eloquent orator in the blue grass state. He has a temperance message but it is delivered pleasantly and sedgely.

Denton C. Crowl, "The New Sam Jones" will not appear. His place on tomorrow night's program will be taken by Noah Beilharz, a young reader and impersonator of much ability. The entertainment he presents is varied and resting.

Additional Lecture Secured.
One addition has been made. The Chicago Ladies' Quartet was originally scheduled to give a full concert next Thursday afternoon at 2:30 o'clock. At this hour they will give a shorter concert and at three o'clock James Monahan of Darlington will appear. Mr. Monahan is the ex-internal revenue collector of this district and the greater part of his life has been spent in public service. During this time he has seen politics and government from the inside and he will come here with a plea for "conservation in legislation." Mr. Monahan has prepared his lecture carefully and is a fervent orator. The Monona Lake Assembly management has booked him and he is seriously considering making platform speaking his future work. In view of the Wisconsin legislature's recent passage of the 2-cent fare bill and the enactment of drastic legislation throughout the country this theme will prove of great interest.

Twenty-eight Tents Rented.
Up till ten o'clock this morning twenty-eight camper's tents had been rented. This is a larger number of campers than ever and it is likely that there will be an increase before Sunday. The majority of camping parties moved to the ground this morning.

Origin of Drinking Health.
The too common custom of "drinking healths" had a most curious origin. In the days when the Danes lorded it in England they had a very common habit of stabbing Englishmen in the throat when drinking. To avoid this villainy a man when drinking would request some of the sitters-by to be his pledge, or surety, while taking his draught. Hence the custom.

WILL BEGIN MONDAY.
The Big Ziegler Clothing Sale For Which People Are Waiting.

The announcement that the Ten Day Sale of the Ziegler Clothing company will begin next Monday has caused clothing buyers all over the city to adjust their purchasing plans to enable them to enjoy the splendid money-saving advantages of this big sale. Manager Smith is more than pleased with the many inquiries which have come to him regarding the coming sale, for they indicate that the public has learned to appreciate and wait for these sales.

The reductions during the coming Ten Day Sale will not be confined to a few lines, but will embrace the entire stock, and as is well known, there is not a more complete and "all-new" stock in southern Wisconsin.

We Are State Agents for
The 2 H. P. Economizer Gasoline Engine
Price Complete, \$100.00

Built for business and a fuel saver. Has features not obtained in other engines. It will save one to three gallons out of every ten gallons of gasoline used with an ordinary gasoline engine. No gears. Perfect regulation of speed.

The Economizer Two H. P. Gasoline Engine is designed for Machinists, Blacksmiths, Farmers, Printers, Butchers, Running Electric Lights, and many other purposes where steady, reliable power is wanted at the least possible cost.

In addition to the above these engines are doing the following work:

- Running a large Campbell Printing Press and two or three Jobbers at the same time.
- Running a Trip Hammer, Lathe, Drill Press and two fires all at the same time, to full capacity.
- With a suitable pump will lift 25 to 30 barrels of water per hour to a height of 100 ft.
- With a good rip saw it will rip 2 inch hardwood plank successfully. It will run a 10 gallon Ice-Cream Freezer.
- It will run either No. 41 or 52 Enterprise Meat Cutter, or a No. 21 Buffalo Cutter.
- It will turn a Cement Mixer, mixing one sack of cement and regular amount of sand in two minutes.
- It will drive a No. 1 Wood Sawing Machine, cutting 15 to 20 cords of wood in 10 hours.
- It will grind 6 to 15 bushels of fine grain per hour, according to conditions.
- Will drive a Dynamo furnishing 16 to 20, 16-candle power lights.

Many other purposes where reliable power is wanted.

Can you ask for anything better? An engine that meets the demands of the people, and can be sold at a moderate price is what people are looking for.

The Two H. P. Economizer meets all these demands and is doing what many other engines fail to do.

It is put on the market at a price that has no competition where quality, service and economy are considered.

Price \$100.00 complete, with 2 sets of batteries, water tank, etc. We are also agents for the Sta-Rite Gasoline Engine, sizes 2 1/2 to 25 H. P.

Call and see a 2 H. P. Gasoline Engine running our complete plant at a cost of one-third less than any power we have ever used.

We carry a complete line of Belting, Lacing, Packing, Waste, Oils, Grease, Graphite, Pipe Fittings, Valves, Grease and Oil Cups; Wrenches, Pliers and Mechanics' Tools.

To contradict certain talk and to put the consuming public in possession of the truth, we say in plain words that no one in this town can sell as good coffee as Arbuckles' Ariosa for as little money.

Misbranded and make-believe Mocha and Java, or coffee sold loose out of a bag or a bin, is not as good value for the money, nor can it be sold at as narrow profit, nor reach the consumer under as favorable conditions.

When you buy Arbuckles' Ariosa Coffee you get more than 16 net ozs. of straight, wholesome Brazilian coffee from the largest coffee firm in the world, with that firm's direct assurance that they are giving you the best coffee in the world for the money.

There is a Scientific Reason for Everything that Happens in the Wash Tub.

There is a reason why some soaps cleanse easily without injuring the fabric; there are reasons why other soaps and some waters nearly break the back of the laundress, with rubbing—which wears out the clothes.

Beach's Peosta Soap

is made to meet every requirement of most experienced housekeepers who understand these scientific reasons and insist on The Peosta Way of doing things.

Clean, snowy clothes, "all out before noon" is the Peosta rule.

16—There's a right way to hang out the clothes. Have the lines clean, hang things squarely, fasten by horns and bands and hang clothes of a kind together. Do not hang anything by the corners.

The Peosta Way is Best --- ALL the Way.

Hard to Answer.
One day Robert Herrick, the novelist, was impressing upon his class in English literature, in the University of Chicago, the importance of reading what had been written with a purpose and had character and power. He contrasted forcefully such literature with the light, rapid, frivolous sort that seemed to appeal to such a large percentage of readers. He then asked each student to tell him frankly which kind he was reading. After nearly all had confessed to something light, he came to a tall westerner, who showed a tendency to evade the question. "It can't be possible, I hope," said Herrick, "that you are not reading anything?" "No, it is not that," replied the westerner. "The fact is, I am reading your latest novel, and I can't decide to which class it belongs."—Lippincott's Magazine.

Wolf in Italian Town.
It is not often that European eyes witness the spectacle of a wolf trotting leisurely through the streets in broad daylight, and with little apparent concern. Such an incident happened recently in the Italian town of Anzeano. The wolf went sniffing first in the direction of one house and then of another as he went along. Passing by the hospital, an attendant of sporting instincts saw the game, and, rushing for a gun, gave chase. Before long he got a chance for a shot, which hit the wolf, and, following this up with another, the beast was slain. Its presence in the town is accounted for by the theory that the beast had been hunting over night away from his haunts, and after eating to satiety and sleeping through the night, was making his way back to his lair.
